	Subd. 8. Evaluation. The selection team shall evaluate the design-build
<u>q</u> 1	ualifications of responding firms and shall compile a short list of no more than five

<u>m</u>	nunicipality may readvertise or cancel the project as the municipality deems necessary.
	Subd. 9. Phase two; design-build RFP. The municipality shall prepare an RFP,
W	rhich must include:
	(1) the scope of work, including (i) performance and technical requirements, (ii)

40.1	(2) copies of the contract documents that the successful proposer will be expected to
40.2	sign;
40.3	(3) the maximum time allowable for design and construction;
40.4	(4) the road authority's estimated cost of design and construction;
40.5	(5) the requirement that a submitted proposal be segmented into two parts, a
40.6	technical proposal and a price proposal;
40.7	(6) the requirement that each proposal be in a separately sealed, clearly identified
40.8	package and include the date and time of the submittal deadline;
40.9	(7) the requirement that the technical proposal include a critical path method,
40.10	bar schedule of the work to be performed, or similar schematic; preliminary design
40.11	plans and specifications; technical reports; calculations; permit requirements; applicable
40.12	development fees; and other data requested in the RFP;
40.13	(8) the requirement that the price proposal contain all design, construction,
40.14	engineering, inspection, and construction costs of the proposed project;
40.15	(9) the requirement that surety be submitted equal to the total amount of the proposal;
40.16	(10) a description of the qualifications required of the design-builder and the
40.17	selection criteria, including the weight of each criterion and subcriterion;
40.18	(11) the date, time, and location of the public opening of the sealed price proposals;
40.19	(12) the amount of, and eligibility for, a stipulated fee;
40.20	(13) other information relevant to the project; and
40.21	(14) a statement that "past performance," "experience," or other criteria used in the
40.22	RFP evaluation process does not include the exercise or assertion of a person's legal rights.
40.23	Subd. 10. Design-build award; computation; announcement. A design-build
40.24	contract shall be awarded as follows:
40.25	(a) The Technical Review Committee shall score the technical proposals of the
40.26	proposers selected under subdivision 8 using the selection criteria in the RFP. The
40.27	Technical Review Committee shall then submit a technical proposal score for each
40.28	design-builder to the municipality. The Technical Review Committee shall reject any
40.29	nonresponsive proposal, including those unable to provide sufficient surety to guarantee
40.30	project completion. The municipality shall review the technical proposal scores.
40.31	(b) The commissioner or the commissioner's designee shall review the technical
40.32	proposal scores. The commissioner shall submit the final technical proposal scores to the
40.33	municipality.
40.34	(c) The municipality shall announce the technical proposal score for each
40.35	design-builder and shall publicly open the sealed price proposals and shall divide each
40.36	design-builder's price by the technical score that the commissioner has given to it to obtain

an adjusted score. The design-builder selected must be that responsive and responsible design-builder whose adjusted score is the lowest.

- (d) If a time factor is included with the selection criteria in the RFP package, the municipality may use a value of the time factor established by the municipality as a criterion in the RFP.
- (e) Unless all proposals are rejected, the municipality shall award the contract to the responsive and responsible design-builder with the lowest adjusted score. The municipality shall reserve the right to reject all proposals.
- (f) The municipality shall award a stipulated fee not less than two-tenths of one percent of the municipality's estimated cost of design and construction to each short-listed, responsible proposer who provides a responsive but unsuccessful proposal. If the municipality does not award a contract, all short-listed proposers must receive the stipulated fee. If the municipality cancels the contract before reviewing the technical proposals, the municipality shall award each design-builder on the short list a stipulated fee of not less than two-tenths of one percent of the municipality's estimated cost of design and construction. The municipality shall pay the stipulated fee to each proposer within 90 days after the award of the contract or the decision not to award a contract. In consideration for paying the stipulated fee, the municipality may use any ideas or information contained in the proposals in connection with any contract awarded for the project or in connection with a subsequent procurement, without any obligation to pay any additional compensation to the unsuccessful proposers. Notwithstanding the other provisions of this subdivision, an unsuccessful short-list proposer may elect to waive the stipulated fee. If an unsuccessful short-list proposer elects to waive the stipulated fee, the municipality may not use ideas and information contained in that proposer's proposal. Upon the request of the municipality, a proposer who waived a stipulated fee may withdraw the waiver, in which case the municipality shall pay the stipulated fee to the proposer and thereafter may use ideas and information in the proposer's proposal.
- (g) The municipality shall not limit the ability of design-builders that have submitted proposals to protest a contemplated or actual award by the commissioner by, among other things, unreasonably restricting the time to protest; restricting the right to seek judicial review of the commissioner's actions; attempting to change the judicial standard of review; or requiring the protestor to pay attorney fees for an unsuccessful, nonfrivolous protest. Unless all design-builders that have submitted proposals agree to execution of a contract for the project without a waiting period beforehand, the municipality shall wait at least seven days after both the award of the project and public disclosure of the

42.3	Subd. 11. Low-bid design-build process. (a) The municipality may also use
42.4	low-bid, design-build procedures to award a design-build contract where the scope of
42.5	the work can be clearly defined.
42.6	(b) Low-bid design-build projects may require an RFQ and short-listing, and must
42.7	require an RFP.
42.8	(c) Submitted proposals under this subdivision must include separately a technical
42.9	proposal and a price proposal. The low-bid, design-build procedures must follow a
42.10	two-step process for review of the responses to the RFP as follows:
42.11	(1) the first step is the review of the technical proposal by the Technical Review
42.12	Committee as provided in subdivision 5. The Technical Review Committee must open
42.13	the technical proposal first and must determine if it complies with the requirements of the
42.14	RFP and is responsive. The Technical Review Committee may not perform any ranking
42.15	or scoring of the technical proposals; and
42.16	(2) the second step is the determination of the low bidder based on the price
42.17	proposal. The municipality may not open the price proposal until the review of the
42.18	technical proposal is complete.
42.19	(d) The contract award under low-bid, design-build procedures must be made to the
42.20	proposer whose sealed bid is responsive to the technical requirements as determined by
42.21	the Technical Review Committee and that is also the lowest bid.
42.22	(e) A stipulated fee may be paid for unsuccessful bids on low-bid, design-build
42.23	projects only when the municipality has required an RFQ and short-listed the most highly
42.24	qualified responsive bidders.
